# HERE'S WHERE THE JOURNEY STARTS.

It all starts with finding the most amazing fabrics. We don't settle until we find the perfect representation of the Storm Creek brand. From there, we progress through design details, add performance features, and perfect the fit until we've developed just the right garment.

## FABRICS GUIDE

### IRONWEAVE

Large-scale yarn, in a robust vertical weave, creates a distinguishing multi-dimensional look.

### SOFTSHELL

A waterproof/breathable woven outer shell with spandex offers remarkable stretch and performance.

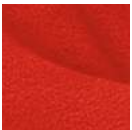

### SWEATERFLEECE

Soft, textured fleece with the rich look of heathered wool and lightweight performance of fleece.

### BIRDSEYE FLEECE

Lightly textured weave looks great, feels smooth, and is brushed inside for comfort and warmth.

### MICROFLEECE

High filament yarns make this anti-pill microfleece remarkably soft, lightweight, warm and fast drying.

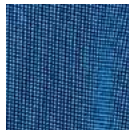

### FEATHER SWEATER

Lightweight sweater knit polyester/spandex blend gives this fabric its versatility and unique hand.

### RIPSTOP

Woven to create anti-tear ribs of protection for texture and lasting performance.

### MICROTHERM

Two unique yarns, dyed, knitted and peached to perfection, creating a stunning two-tone effect.

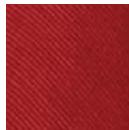

### CERAMIC COATING

Printed, ultra smooth interior with matching seam tape makes for a great finish and comfort against skin.

### PERFORMANCE FLEECE

Smooth face and brushed back side; technical performance meets comfort.

### BAMBOO

40% bamboo viscose knitted with 60% polyester is striking and silky-smooth, with natural performance.

### FINE DENIER POLYESTER

A fabric weave so dense that wind and water protection comes easily yet it stays soft, quiet and comfortable.

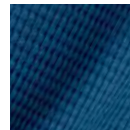

### HOLLOW YARN

A special hollow core yarn wicks away moisture and regulates body temperature while blocking UV rays.

### HERRINGBONE

Two-toned yarn creates a sophisticated, textured look - ideal for our premier jacket series.

### WAFFLE KNIT

The comfort of cotton combined with vibrant polyester threads creates this three-dimensional, eye-catching fabric.

# DESIGNED FOR A PURPOSE. MADE TO LAST.

There's a simple reason for why we continuously update and innovate our apparel: to keep you comfortable and ready to experience what life has to offer. Our lifetime warranty assures you that those adventures continue, season after season.

## INNOVATIONS GUIDE

### THERMOLITE™

Superior insulation that provides warmth and comfort without weight.

Waterproof so rain and snow can't get in; breathable so body moisture gets out.

Advanced yarn design and fabric treatments move moisture away from your body.

Waterproof tape is used to seal inside seams for maximum waterproof protection.

Waterproof/breathable membrane fused between outer and inner fabric for superior weather protection.

Reflective accents added to help in low visibility conditions.

Moisture management plus antimicrobial treatment keep you comfortable and odor free.

Leading edge 2-way and 4-way stretch technology for uncompromising fit and comfort.

High-tech insulation traps air to keep the body warm.

Designed to keep wind from penetrating.

Men's big and tall size options up to 5XL and up to 3XL Tall.

**INFINITE PERFORMANCE**

Chemical-free wicking performance that will never wash out.

**WATER RESISTANT**

Fabric is technically treated to resist moisture penetration.

**STORM PROTECT™**

# MAKE IT YOURS.

Lean on our combined in-house design expertise and extensive private label experience with three decades of supplier relationships to create one of many different custom possibilities for your outdoor-inspired apparel.

## **NEW! Made-to-Order Tagless** *Quick turn, low minimum!*

Select the 3120/3125 Thermolite® Insulated Vest or 3160/3165 Thermolite® Insulated Jacket in black (this garment will not contain any Storm Creek branding). Add your custom heat transfer neck label and outside garment decoration. 24 piece minimum. Call for pricing.

## **Storm Creek Custom** *High volume with style!*

Using our lifestyle collection of apparel for every season as inspiration, we modify your selection to achieve exactly what your brand needs. Generally speaking, this approach requires 2,000 pieces and 90-140 day lead time.

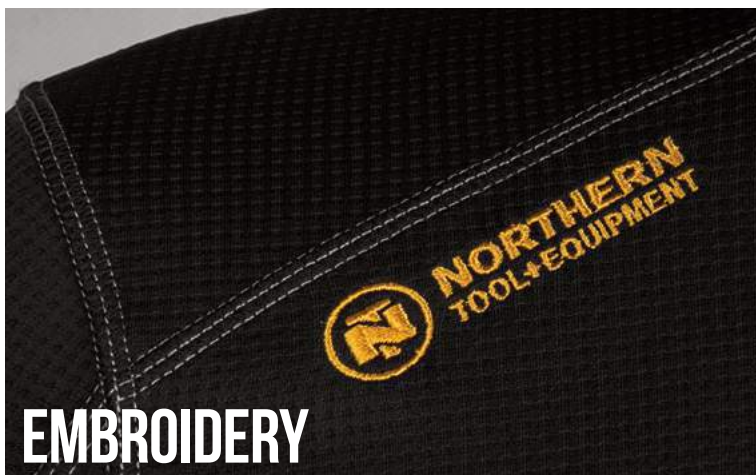

## **Total Custom** *Let your imagination run wild!*

Have a completely unique apparel need? We've been making private label apparel for over 30 years. Let us put this design and sourcing expertise to work for you! Requires minimum order quantities and ample design/sourcing timelines.

Selecting high quality apparel was just the beginning. Selecting the right high quality decoration location and method is the key to making your brand really stand out.

And now with the addition of embroidery and heat transfer to our in-house capabilities, you have one more level of quality assurance and great service.

## EMBROIDERY

Create exquisite, textured designs with this timeless decoration method.

## HEAT TRANSFER

Great for lightweight fabrics, it creates just the right look with a variety of transfer materials and color options – including reflective.

# SIMPLE. SERVICE. SUCCESS.

One contact. One invoice. One shipment. One great way of getting things done, from the first idea to the final delivery.

We make it easy to see your brand on our apparel before you place your order. Go to [distributor.stormcreek.com](http://distributor.stormcreek.com) to try a variety of virtual combinations, as well as to request spec samples.

Have a question about the best decoration for your preferred apparel? We'll consult

with you on which techniques work best with a particular fabric.

Whichever combination you ultimately choose, you can be confident that your brand is going to look great – because we design our styles specifically with decoration in mind.

For assistance, price lists and art requirements, just reach out to us at [art@stormcreek.com](mailto:art@stormcreek.com).

## LASER ETCH

A laser burns the top layer of the fabric creating a subtle, tonal look that won't wear off.

## SCREEN PRINT

Achieve crisp art details and vibrant colors, matched exactly to your brand standards.

## DYE SUBLIMATION

By fusing ink to fabric, this is a great full color option with a soft hand that will last and last.

## HOW TO MEASURE YOUR BODY

- A CHEST:** Measure around the fullest part, keeping the measuring tape horizontal.
- B WAIST:** Measure around the narrowest part of waist (typically the small of your back and where body bends side to side), keeping the measuring tape horizontal.
- C HIPS:** Measure around the fullest part of your hips, keeping the measuring tape horizontal.
- D NECK (MEN):** Measure around the base of your neck.
- E SLEEVE LENGTH:** With arm relaxed at side and slightly bent, measure from the center back neck, across shoulder to elbow, and down to wrist.
- F INSEAM:** Measure from the top of your inner leg along the inside seam to the bottom of your leg.

## CHOOSING THE RIGHT SIZE

If your body measurements for chest, waist, and hips result in different suggested sizes, order the size that corresponds to your chest measurement for tops and waist measurement for bottoms.

If your body measurement is between two sizes, order the smaller size for a tighter fit and the larger size for a looser fit.
